## **A GREEK-TURKISH SOLAR ENERGY EXCELLENCE HUB TO ADVANCE THE EUROPEAN GREEN DEAL**

We are delighted to invite you to the SolarHub Accelerator Program & Solar Thermal Technologies Webinar, scheduled for April 4, 2024, at 10:00 AM CET. This webinar is organized by SHE, CRES, METU, ODTÜ-GÜNAM and IDI as part of the SolarHub Project.

The SolarHub Project aims to advance solar energy innovation within Greece and Türkiye. The SolarHub Acceleration Program is a strategic component of the project, designed to foster the development and commercialization of innovative solar energy technologies and to support research teams and startups at various stages of maturity within the solar energy sector. The specific webinar is focused on early-stage startups, entrepreneurs, and research teams, providing ideation workshops, basic business model formation, and initial market research.

Participating in the SolarHub Acceleration program opens up a multitude of benefits for research teams and companies focused on solar energy, furnishing them with the tools and expertise necessary to navigate the complexities of the industry and scale their innovations effectively:

- Training and Education
- Mentoring and Coaching
- Networking
- Access to Cutting-Edge Solar Technologies
- Market Entry and Expansion Support
- Sustainability and Growth Focused
